B.TECH. CHEMICAL ENGINEERING

Design. Develop. Deliver.

ABOUT THE COURSE

The B.Tech. in Chemical Engineering at Vidhyadeep University equips students with the knowledge and skills to design, develop, and optimize processes that convert raw materials into useful products. The program blends core engineering principles with modern technology, sustainability, and innovation to solve real-world challenges.

COURSE HIGHLIGHTS

- ✓ Comprehensive curriculum covering core & advanced chemical engineering subjects.
- ✓ Advanced laboratories with modern equipment and process simulators.
- ✓ Industry internships & live projects for hands-on experience.
- ✓ Focus on sustainability, safety, and environmental engineering.
- ✓ Pathways for higher studies and global career opportunities.

CAREER OPPORTUNITIES

- Process Engineer
- Production Engineer
- R&D Engineer
